InSpire Roofing Products

The High Point of a Beautiful Home

At InSpire, we want you to look up to your roof and see a lifetime of stunning beauty. Beyond the necessity of protecting your home, we strive to provide both timeless elegance and extreme performance – each without compromise.

No other lifelong roofing provides all the rich, textured charm and warm color of InSpire Cedar Shake and InSpire Slate. Our discerning authenticity is crafted with molds of real hand-split cedar and quarried slate for sophistication that has never been so worry-free, value-enhancing and sustainable.

At the same time, there's no worry about weather damage, fire resistance, rotting and termites, or costly regular maintenance. InSpire paints a portrait of elegance for your home while bringing Class A fire resistance, Class 4 impact resistance, a 110 mph wind uplift rating and the integrity of a limited lifetime warranty.

For many, roofing is an afterthought. For us, it's majestic, artistic and romantic – the high point of a beautiful home.

On the cover, 703 Grey

Shake Tile

InSpire's innovations allow you to easily embrace cedar shake style while gaining peace of mind and charm that effortlessly endures. The elegance of shake has historically come with high maintenance cost, and high risk of fire and decay. Now, InSpire's Cedar Shake roofing system combines highest-level Class A fire resistance with no maintenance ever required.

Our genuine colors, cedar grain texture and advanced engineering allow you to capture the gorgeous ambience of cedar for as long as you own your home. There's no rotting, cracking or need for regular cleaning or chemical treatments.

Our proprietary color process delivers delicate shade variations with unique authenticity and sublime, unified color. We factory-collate proportions of nuanced color and 10", 7-1/2", and 5" shake widths, giving you the ideal roof.

Slate Tile

Slate roofing has long been prized for its strength and beauty, following its rise in popularity through America's early years. InSpire Roofing's authentic surfaces and edges highlight the picturesque character of slate, at the same time using advanced technology to enhance its performance. Unlike natural slate, InSpire won't break or delaminate. InSpire delivers Old-World elegance to both expansive and more intimate homes, ranging from Tudor to Victorian and also to light commercial buildings ranging from rustic to contemporary.

InSpire composite slate is created with molds cast from real slate, capturing genuine details like peaks, plateaus and curves. InSpire's color-through properties and UV stability ensure "stay-true" richness of traditional slate colors such as Emerald Green and Pewter Grey, bold colors like Terra Cotta, and sophisticated blends such as Grey/Black blended tiles.

A Rich Palette

InSpire's Traditional and Architectural colors for slate offer a unique array of selections, encompassing both traditional slate hues and bold new tones. Our spectrum of 19 colors provides nearly three times the choices available from other makers. InSpire's versatility allows you to select a single color for a saturating richness, a blended color for striking dimension or a hand-mixed variety of tiles to impart multiple colors for a completely personalized design.

InSpire Mixes

For some, the roof is a canvas waiting for more than one bold color. Architectural InSpire Mixes feature a variety of beautifully balanced color, protecting your home with elegant purpose. Tiles are factory-mixed using expertly-crafted color ratios and shipped ready for application, so installations are cleaner and faster. Turning your roof into a great work of art is simple; it's the results that are astonishingly sophisticated.

Cool Roofing Colors

InSpire Slate is available in nine cool roof color choices, including both rich traditional colors and light modern colors.

InSpire's cool roofing colors can potentially lower a roof's surface temperature by reflecting sunlight and reradiating heat away from the roof. This reduces the heat transferred into a structure and cuts peak cooling demand by up to 15 percent.

InSpire Slate cool roofing provides elegant, timeless character compared to similarly priced metal cool roofs, thereby meeting every aesthetic, functional and sustainable need. Cool roofing can add one or more LEED points to the several potential LEED credits already available with InSpire Slate. By enhancing the environment, helping create sustainable projects and giving homeowners beauty that generates cost savings – cool roofing is another reason why InSpire surpasses quarried slate with unprecedented appeal and value.

Accessories

Ridge Vent Cap

RidgeMaster® Plus offers a sturdy, no-dent construction that shrugs off falling tree branches and hammer strikes while blocking out weather and bugs. Easy, smooth installation with nailing and shingle alignment guides.

RidgeMaster Plus shown with InSpire Slate Hip and Ridge Tile.

CapMaster®

Simultaneously protects and beautifies, while helping to eliminate stack vent leaks.

Hip and Ridge Tiles

Hip and Ridge tiles cover hips and ridges, available preformed for pitches 4/12-8/12 and 9/12-14/12.

Slate Hip and Ridge Tile

Shake Hip and Ridge Tile

Snow Guards

Snow guards prevent dangerous snow and ice slides by holding snow on the roof allowing it to melt slowly and fall in small pieces.

The Tapco Group®: Innovation is our Cornerstone

All of our brands at The Tapco Group® are firmly rooted in innovation. Focusing on maintenance-free beauty, easy installation, sustainability and delivering the most colors and product options, The Tapco Group is committed to Innovation Born from Original Thinking™. From the basement to the roof, we have your needs covered. We invite you to learn more about the complete range of premium interior and exterior products offered by The Tapco Group. www.TheTapcoGroup.com

StoneCraft Industries™

With incredibly authentic texture, StoneCraft manufactured stone veneer delivers all the beauty of stone, without the cost that comes with quarried stone. Our proprietary manufacturing process ensures a natural look with minimal repeat, and our sustainable mix of ingredients produces stones that will weather and age just like real stone. StoneCraft brings a uniquely rugged sophistication, adding value to homes and outstanding charm to commercial buildings. www.StoneCraft.com

InSpire® Roofing Products

InSpire offers the industry's widest color palette, including the only "color-through blended-color" tiles on the market. The proprietary manufacturing process ensures authentic texture for both InSpire's composite slate and composite cedar shakes, and correct weathering for elegance over the decades. Durability and safety are enhanced with a Class A fire rating and our InFlex design that delivers a perfect fit and strength that survives 110 mph winds. www.InSpireRoofing.com

The Foundry®

The Foundry Specialty Siding offers the handsome warmth of shake and shingle siding and the inherent charm of stone. Our proprietary manufacturing process uses more than hundreds of molds cast from real cedar and stone, giving your home authentic texture with artistic color and premium durability. An ASA cap keeps colors rich for a lifetime. Contractor-friendly 5-foot panels are unique, allowing easy handling, less scrap and faster completion of homes. www.TheFoundry.com

Atlantic Premium Shutters®

When only the best will do, Atlantic Premium Shutters provide the ultimate level of sophistication for homes. Atlantic's architecturally-correct shutters are handcrafted to each homeowner's specifications, adding detail and dimension with operability or full functionality. The Architectural Collection's cutting-edge construction lasts a lifetime, while its protective finish ensures the rich color you select will stay vibrant for years. www.atlanticpremiumshutters.com

Mid-America Siding Components®

Holding more exterior-product patents than anyone else, Mid-America Siding Components help builders and contractors finish the job, with decorative products that install easily and provide standout curb appeal. Our innovations allow quick and efficient installation while delivering a finished look. Offered in the industry's widest color palette, Mid-America products add versatile style to exteriors ranging from brick to fiber cement to stone veneer. www.midamericacomponents.com

Wellcraft® Egress Systems

For code-compliance and peace of mind, Wellcraft Egress Systems provide critical escape routes while making basements more livable. The systems' simple use delivers an emergency exit that even children can operate. Basements are enhanced by the addition of natural light and fresh air, and innovative well designs even allow homeowners to create a scenic look by adding flowers and plants directly into well steps. www.wellcraftwells.com

Tapco Integrated Tool Systems®

Serving professional siding applicators since 1961, Tapco Integrated Tool Systems allow for faster bending, safer cutting and customized exterior touches that distinguish their customers' homes. Our brakes and full line of accessories offer quick measuring, efficient slitting and sawing, enhanced job site mobility and the ability to create value-adding decorative designs and strengthening ribs in fascia, window trims, frieze boards, porch posts and beams. www.TapcoTools.com

IQm™ Trim Boards

An industry revolution, IQm Trim brings expressive, colorful detail to homes without the need to ever pick up a paintbrush. IQm surpasses traditional PVC, long available only in white, to offer the industry's widest spectrum of colors. Its cellular PVC design is color-through and protected by an ASA cap for performance that's warranted for life. IQm's patented AquaFlex™ fin provides a secondary level of protection by funneling water away from a home, reducing moisture damage. The built-in j-channel hides the cut ends of fiber cement or other panels. www.iqmtrimboards.com
