ROOFING PRODUCTS

InSpire Roofing Products

We appreciate art.

731 Ash Grey

"InSpire is a premium product. It looks great and the homeowner loves it. Our roofing guys and the general contractor really liked it and the guys had an easy time installing it." - Sandor Jenei, Euro Roofing, Irvine, CA

At InSpire, our mission is to provide you with an incredible roof. One that connects you with natural beauty, delivers the ultimate home protection and requires only the simplest installation with virtually no maintenance.

Our appreciation for art allows us to bring you the most innovative and complete color palettes along with textures that stunningly reflect natural cedar and slate.

We appreciate science.

Our appreciation for science results in advanced manufacturing with top-rated Class A fire resistance, Class 4 impact resistance, 110 mph wind uplift rating and a limited lifetime warranty.

Driven to bring you incomparable total performance, see why roofers around the country trust, prefer and recommend InSpire Shake and Slate Roofing, and why homeowners absolutely love their roofs.

Shake *Tile*

InSpire Shake has beautifully achieved what was once impossible – creating a synthetic shake that is easy to love and without maintenance. There is none of the notorious rotting, cracking, splitting or chemical treating that natural cedar often regularly requires. Instead, the roof is extremely durable and fire risk is minimized with our top-level Class A fire resistance, especially noteworthy for communities prohibiting cedar roofs or requiring Class A roof systems.

"I would not hesitate to put it on a roof again. Eighty-five percent of our business is repeat or referral. We like to steer people to products that we know are going to hold up." -
Don Oelrich, Rooftoppers, Los Angeles, CA

751 Cedar Brown

752 New Cedar

InSpire Shake's proprietary finishing delivers delicate shade variations with authenticity that is harmonious and natural to the eye. Our tiles' sublime, unified color is factory-collated along with the correct proportions of our 10", 7-1/2" and 5" shake widths to give you the ideal shake roof.

752 New Cedar

Slate *Tile*

For centuries, slate roofing has been desired for its durability and beauty. With authentic surfaces and edges, InSpire Slate highlights the handsome character of slate, at the same time enhancing roof performance through innovative tile design. Unlike natural slate, InSpire won't break or delaminate.

"A lot of people think it's actually real slate because of the color and how authentic it looks. InSpire really shines for us."
- Sheldon Robinson, Sheldon Robinson Custom Homes, Frisco, TX

718 Grey/Black Blend

707 Emerald Green

InSpire Slate gives you the power to evoke both historical elegance and outstanding modern-day style. Our slate tiles are created with molds cast from real slate to capture genuine peaks, plateaus and curves. Color-through design and UV stabilization ensure “stay-true” richness for traditional colors such as Forest Green and Plum, bold tones like Brick Red and unique selections such as Cool Roofing Sand and Grey/Black blended tiles.

703 Slate Grey, 706 Plum, 714 Moss Green

InSpire *Mixes*

Few roofs can be described as breathtaking. But that's the effect of our InSpire Mixes. With uncommon, dynamic style, this architectural roofing features a variety of beautifully balanced color to turn a roof into a work of art. Using expertly-crafted color ratios, InSpire Mix tiles are bundled and shipped ready for application, providing installations that are cleaner and faster. With exceptional character, the InSpire Mix roof is uplifting and sophisticated like no other.

*"InSpire is a great-looking product.
You can't argue with the realism."*

- Bill Broeker Jr., Vice President of Old Style Roofing

Cool Roofing

InSpire Slate Cool Roofing is the graceful way to live more sustainably. Our cool colors reduce a home's carbon footprint and reduce monthly energy bills by cutting peak cooling demand by up to 15 percent. Advanced colorants help reflect sunlight and reradiate heat away from the roof, reducing the heat transferred into a home.

"InSpire's innovation influenced the product decision very much. From the install, to the quality of the product, to the homeowners' viewpoint, it's really a good product."
- Chuck Harrison, AIBD, Blair Custom Homes, Bethlehem, PA

Delivering a traditional, attractive solution, InSpire Slate Cool Roofing provides timeless sophistication compared to similarly-priced metal cool roofs to help meet every aesthetic, functional and sustainable need of discerning homeowners. Cool roofing can add one or more LEED points to the several potential LEED credits already available with our sustainable roofing.

737 Sand

Traditional *Color Palette*

InSpire's Traditional colors for slate offer a vast array of rich selections, encompassing both time-tested hues and new, vibrant ideas. Accessories

Hip and Ridge Tiles

Hip and Ridge tiles cover hips and ridges, available preformed for pitches 4/12-8/12 and 9/12-14/12.

Slate Hip and Ridge Tile

Shake Hip and Ridge Tile

Ridge Vent Cap

RidgeMaster® Plus offers a sturdy, no-dent construction that shrugs off falling tree branches and hammer strikes while blocking out weather and bugs. Easy, smooth installation with nailing and shingle alignment guides.

RidgeMaster Plus shown with InSpire Slate Hip and Ridge Tile.

CapMaster®

Simultaneously protects and beautifies, while helping to eliminate stack vent leaks.

Snow Guards

Snow guards prevent dangerous snow and ice slides by holding snow on the roof allowing it to melt slowly and fall in small pieces.

Atlantic Premium Shutters®

When only the best will do, Atlantic Premium Shutters provide the ultimate level of sophistication for homes. Atlantic's architecturally-correct shutters are handcrafted to each homeowner's specifications, adding detail and dimension with operability or full functionality. The Architectural Collection's cutting-edge construction lasts a lifetime, while its protective finish ensures the rich color you select will stay vibrant for years. www.AtlanticPremiumShutters.com

Mid-America Siding Components®

Holding more exterior-product patents than anyone else, Mid-America Siding Components help builders and contractors finish the job, with decorative products that install easily and provide standout curb appeal. Our innovations allow quick and efficient installation while delivering a finished look. Offered in the industry's widest color palette, Mid-America products add versatile style to exteriors ranging from brick to fiber cement to stone veneer.

www.MidAmericaComponents.com

SturdiMount®

SturdiMount by Mid-America is the mount block of choice for providing fiber cement homes with a superior finish and a trusted water management solution. Integrating fiber cement with a durable nailing flange, SturdiMounts are pre-flashed and pre-assembled to save time, while also ensuring the cleanest finish for coach lights, hose bibs, dryer vents and other applications. SturdiMount products are the only mount blocks to carry the "Recommended by James Hardie®" logo and are cited in the Hardie Best Practices Guide under General Installation Requirements. www.SturdiMount.com

Tapco Integrated Tool Systems®

Serving professional siding applicators since 1961, Tapco Integrated Tool Systems allow for faster bending, safer cutting and customized exterior touches that distinguish their customers' homes. Our brakes and full line of accessories offer quick measuring, efficient slitting and sawing, enhanced job site mobility and the ability to create value-adding decorative designs and strengthening ribs in fascia, window trims, frieze boards, porch posts and beams. www.TapcoTools.com

Wellcraft® Egress Systems

For code-compliance and peace of mind, Wellcraft Egress Systems provide critical escape routes while making basements more livable. The systems' simple use delivers an emergency exit that even children can operate. Basements are enhanced by the addition of natural light and fresh air.
